SELECTED PROJECTS

Bangla News 24

Live: bangla-news24-two.vercel.app | Code: github.com/mdsakibdev/Bangla-News-24

Tech: Next.js, React, TypeScript, Tailwind CSS, daisyUI, Better Auth, MongoDB

A Bangla-language news portal featuring a running latest-news ticker, dedicated category pages across politics, world, economy, health, sports, and technology, individual article pages, and user sign-in/sign-up flows.

Bazar Dor

Live: bazar-dor-sable.vercel.app | Code: github.com/mdsakibdev/Bazar-Dor

Tech: Next.js, React, TypeScript, Tailwind CSS, daisyUI, Better Auth, MongoDB

A Bangla, mobile-first web app for tracking daily prices of essential commodities. Prices are shown with rising/falling indicators, can be browsed by category and sorted, and are broken down by individual retail markets so shoppers can compare before buying. Includes email/password authentication plus Google and GitHub sign-in via Better Auth.

Verdant Table

Live: verdant-table-puce.vercel.app | Code: github.com/mdsakibdev/Verdant-Table

Tech: Next.js, React, Tailwind CSS, Better Auth, MongoDB

A polished, fully responsive website built for a catering business concept, featuring a services showcase spanning event types from weddings to corporate catering, a featured menu with individual dish detail pages, a product shop with a cart flow, and a quote-request contact flow.
